

Message for clinical research study participants taking part in Novo Nordisk clinical studies: FLOW, SOUL, SELECT, FOCUS, STEP 1, STEP 2, NASH F4, AMYLIN, EXPECT, PATHFINDER 8, REAL 4 & 5, PARADIGM 5 & 6, STEP-TEENS

Dear Novo Nordisk Clinical Research Study Participants,

Novo Nordisk would like to thank you for your ongoing participation in our clinical studies.

We understand that these are very challenging times and would like to provide you with reassurance that you, our clinical study participants, are our priority at this time. We are working very closely with your clinical study doctors and nurses to ensure that the study you are taking part in can continue as planned.

You may experience some changes to your usual clinical study visits, for example, you might need to have **telephone visits** instead of visiting the clinic. We may also have to provide you with your study medicine in different ways, for example, your partner or family member may need to collect this on your behalf.

Our main priority is your health and safety throughout this period. If you have any questions or concerns, please contact your study doctor and study staff who will be able to support you and answer any questions that you may have.

Kind Regards

Novo Nordisk UK Clinical Team
